| 9. | **Job Details and Responsibilities** | The Department of Spacecraft Engineering at the Institute of Space and Astronautical Science (ISAS) contributes to space science missions through academic research on spacecraft and onboard systems that is based on electrical, electronic, and information engineering. Semiconductor devices are one of the key technologies that support modern industry and the economy, and they are also important for the support of spacecraft systems. However, the space environment is characterized by extreme conditions, including high levels of radiation, and spacecraft systems require semiconductor devices that can withstand the harsh environment of space.

We are seeking an assistant professor to conduct research on semiconductor devices for spacecraft based on original ideas and to actively contribute to JAXA’s space science and deep space exploration missions in the field of semiconductor devices.

Furthermore, we are looking for a highly motivated candidate who can carry out his/her academic research in a project-oriented style, in collaboration with university researchers under the inter-university framework. Active participation to various JAXA projects and R&Ds to demonstrate his/her academic expertise is also expected. Human resource development for future space development and utilization is anticipated as natural outcome of the above-mentioned activities. We also hope for human resource who can promote joint research in collaboration with related companies as needed.

To fulfill these duties, the successful candidate of the Assistant Professor needs to satisfy, at minimum, the following conditions.
- Have research or practical experience in the field of semiconductor devices with an excellent track record of national and international achievements.
- Have the motivation to be actively involved in the technological development of new semiconductor devices that can be used in future space science missions in cooperation with other universities and companies.
- Be capable of teaching and directing graduate students.

### 10. Conditions

</thead>
</table>
| 1. | Salary  
Salary will be determined under the provision of JAXA wage rules and regulations, considering qualifications and experience. |
| 2. | Working Hours  
In principle, The Discretionary Labor System for Professional Work shall be applied.  
Working hours are basically from 9:30-17:45. The break time shall be 45 minutes if the working hours per day exceed 6 hours, and 1 hour if the working hours exceed 8 hours. Regardless of the above, those who apply The Discretionary Labor System for Professional Work shall have a deemed working time of 7 hours and 30 minutes per day.  
Overtime work may be required depending on the work situation. |
| 3. | Holidays  
Saturdays and Sundays, National Holidays, New Year Holidays (December 29th - January 3rd), others when JAXA deems it necessary, etc. |
| 4. | Vacation  
Annual vacation, WLB (Work Life Balance) annual leave, celebration or condolence leave, maternity leave, child-care leave, care leave, nursing leave, etc. |
| 5. | Retirement age  
Retirement age is 63. |
| 6. | Lodgings  
Lodgings suitable for a family or a single occupant may be provided under the provision of JAXA in consideration of the nature of the work. (Lodging term is limited to 7 years.) Alternatively, an allowance for lodging shall be paid. |
| 7. | Social insurance  
Social insurances (health insurance, pension plan, etc.) will be provided in full. |
|   | Research Funding | Research funding is determined according to the budget situation of each year.  
*FY2021: Professor: ¥800,000, Associate professor: ¥800,000,  
Assistant professor: ¥400,000 |
|   | Required Qualifications | PhD degree in Engineering |
|   | Application Documents | (1) Curriculum vitae  
(2) Research career  
(3) Summary of previous research and Outline of future research plan  
(Including contribution to projects and ambitions for educational activities)  
(4) List of published papers (with impact factors or citation number)  
(5) List of awarded research funds through competition (type of funds, amount, principal investigator, or co-investigator)  
(6) Contact information of two references (names, affiliation, telephone numbers, and e-mail addresses for a direct inquiry from JAXA). If you are recommended by others, please provide two letters of reference.  
(7) Photocopies of major research papers (up to 5) published in peer-reviewed or refereed academic journals  
*If you are a resident of the European Economic Area (the EU zone), you are required to submit the following document as well.  
(8) Consent form for handling personal information based on GDPR (Form NO.1)  
Download the form from the website listed in “14. Submission” |
|   | Submission | Applicants are required to apply via the following website. Please access the application form at the following URL:  
https://isas-appli-form.jaxa.jp/forms1/1643089526  
(Notes)  
1. All the files shall be in pdf format.  
2. Note that documents (2) to (5) should be merged into one pdf file.  
3. If the applicant is recommended by others, we will request referee(s) to directly upload their letters of reference to the website. (This request will be automatically sent to the email addresses of referee(s) specified by the applicant. If the applicant is recommended by oneself, this request will not be automatically sent.)  
4. Application delivered in person or by mail shall not be accepted. |
|   | Application Deadline | April, 4th, 2022, noon (JST)  
This deadline is for inputting the website and submitting all application |
