KAGUYA (SELENE)  
Lunar Orbit Adjustment Maneuver (LOI2)

The Japan Aerospace Exploration Agency (JAXA) plans to carry out a lunar orbit adjustment maneuver (LOI2) for the “KAGUYA” (SELENE) from around 8:01 a.m. on October 6, 2007 (Japan Standard Time, JST.)

* Lunar orbit adjustment maneuver (LOI2): orbit control to lower the KAGUYA’s altitude in the injected lunar orbit (13 in the above figure)
