

ISS (at an altitude of around 400km from the earth)

# “ISS-SCS Space Course” Image

(Appendix 2)

**Expedition Three Crew (Expected to stay aboard the ISS from August to November, 2001)**

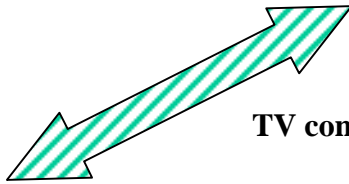

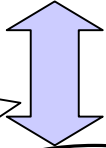

<http://spaceflight.nasa.gov/station/crew/exp3/index.html>

- ISS Commander: Frank L. Culbertson, Jr. (center)
- Flight Engineer 1 : Vladimir Nikolaevich Dezhurov (right)
- Flight Engineer 2 : Mikhail Turin (left)

*Ms. Maki SHINBORI, representative from Japan, will report her STARS experiment to the students from Arizona, USA*

The ISS crew will do interactive communication with Astronaut MOHRI and college students across the country (about 20 minutes)

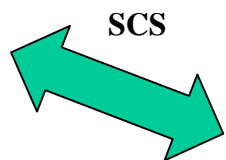

TV conference system

Main site:  
NIME  
(Chiba City, Japan)

Astronaut MOHRI

SCS

**Mutual communication with universities and organizations across the country (approximately 120 sites) via the SCS**

In each site, participants can watch and hear the other site's appearance by large-sized screen, and also can make remarks.

At the main site, Astronaut MOHRI act as a navigator and conduct remote lessons to students all over the country
